California Occupational Safety & Health

How Cal/OSHA Consultation Service can help with your Workplace Safety and Health needs

Frequently Asked Questions

What does an employer requested on-site Consultation Cost?

Nothing. **It's free** – your tax dollars at work!

Will Cal/OSHA Enforcement know we are working with Consultation?

No. We are completely separate programs. We do not share information with Cal/OSHA Enforcement.

Will you "OSHA proof" me?

No. We can't guarantee that Enforcement wouldn't find any violations. But better safety will make an inspection much less likely and less serious.

Will I be fined if you find hazards?

No. Consultation does not issue citations, fines or penalties.

What's the catch?

You'll have to fix any hazards we identify.

The benefits of an On-site Consultation

The more you know about your workplace hazards and how to correct them, the more effective your safety program.

Our consultants help by:

- Identifying and analyzing hazards
- Recommending best-practice solutions
- Helping you with your safety program
- Helping you strengthen your safety culture
- Providing training assistance

The Process...

Requesting Assistance

Call your local Consultation Service office and request an on-site visit. The request will be assigned to a consultant who will contact you to schedule a date and time.

Preparing for the Visit

Have ready:

- Company safety programs
- Workers' compensation loss runs
- Cal/OSHA Form 300's

Opening Conference

The visit opens with a conference. For union companies, the representative should be present. Any employee participation is welcome. The consultant will explain the process, and management can decide whether to proceed.

Learning From Your Safety Record

The consultant will help identify hazards by analyzing your past injuries and illnesses. The focus will be on preventing future losses.

Program Review

The consultant will review all written safety programs, and assess how well they are being put into practice. You'll receive materials and guidance in setting-up an effective injury and illness prevention program.

Walk-Around Hazard Identification

The consultant will conduct a walk-around inspection and help you identify and correct unsafe conditions and work practices.

Closing Conference

At the end of the on-site visit. The consultant will summarize the findings and timeframes for correcting hazards with a written report to follow.
